

Winterliga 2009/10 Spieltag 2

hey Yeahaw!

maybe it's a bit too early, as it's only evening now and we just came back from potsdam after 3 games of 45 min. each. but anyway...

First of all, I'd like to thank our players from today for showing up in such large numbers: ben, binni, carol, tommy, felix, martin, micha, dirk, uwe, dustin, jörg and me;-)

we played more than well. we used the first two games to 1) get into the groove and 2) to score A LOT OF POINTS which will help our position in the league table. So, thank you! The rematch with DJ Dahlem went better for us than it did for them, so that's good, the 1st game against airpussies was a good starting game. As I said, they are a good mixed team- something we'll not be in the nearest future...:-)

What's more, even though we were so many players the atmosphere was quite chilled and we tried to sub as much as possible. Well, the last thing was kinda hard, since we were a huge team today, but, still, I think we did as good as we could.

The third game against Goldfingers was really tough and I must say that we won mainly because we stuck to our system. to be honest, today's YeaHaw!team wasn't as physical or enduring as last week' YeaHaw!team. Still, our adherence to our system (3-1-1) secured the victory. thank you for playing within the system.

It is important that we really acknowledge this, because especially indoor frisbee is not all about physique but rather clever playing and avoiding stupid moves. SO, again, thanks for not playing stupid. You rock.

Also, our D really improved in the 2nd half of the last game- and it had to! we forced right and stole more and more of their discs down the line. If we keep this up, we're gonna play some really good D in the future. we gotta keep this up for fridays... also: we gotta keep the arm up and mustn't allow any break throws...

With regard to our O, we have to practice the movements of our "deep" player! we can be so much more effective! It should only take two passes to score a point with this setup. yet, we lost too much time there because we didn't really accelerate to one cone and mostly forgot to cut to the other cone as a second move...

lastly, I'd like to thank especially Dustin for coming all the way from frankfurt/o and Micha and Martin for playing more and more with us, you are all a real addition to the team. thank you!

And since I'm all busy thanking you I give you this:

<http://www.youtube.com/watch?v=rilKfxeBFBo>

It's a beautiful cover of LedZep's "Thank you" (no fancy pics, just a good song).

God, I love this team...

see you all soon (but not next Friday, only if you wanna go to a kiddy disco;-)

Mirko

Moooooment.

"Das aber nur dank unseres Punkteverhältnisses." kann ich so nicht hinnehmen. Das ist NUR im Moment noch so, weil wir immernoch nicht gegen Hundflachwerfen, Nihilisten, Griffins und disckick 2 gespielt haben. Denn dann hätten die mehr verlorene Spiele als wir! :-)

Schönet Wochenende,

Ben.
